

# Why you need the Russell Monitor List (RML)

## Enable more accurate and efficient planning with less time and cost

Reduce your reliance on third-party data sets, manual mapping and validation, and interpretations of index rules. As a subscribing customer, the Russell Monitor List (RML) gives you access to the same clean and comprehensive US equity universe used by our Index Review team to conduct index Reconstitution.

## A transparent, comprehensive, and timely data source

### Practical client analysis ahead of Reconstitution

Prepare for Russell Reconstitution while reducing the manual effort required to pull together a high-quality security universe.

### Comprehensive list of US equities

Every month, the Russell Monitor List (RML) provides you all US-listed equities eligible for the Russell US Index Series—according to Russell Nationality rules.

### Relevant data on eligible US exchanges

Russell Nationality data includes equities listed on eligible US exchanges (CBOE, NYSE, NYSE American, NASDAQ, NYSE Arca).

## Included data fields

### Target Delivery Schedule

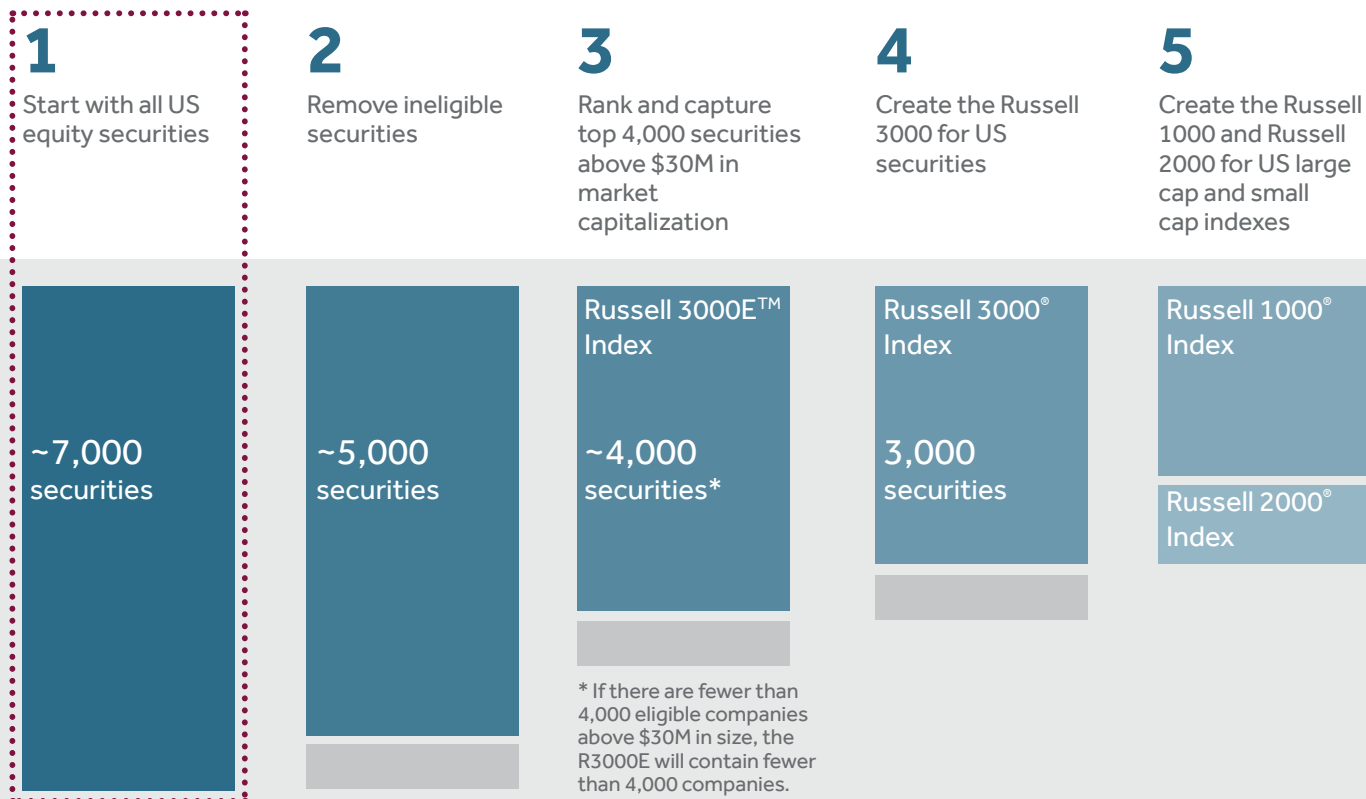

**February, May, August, November:** Daily, third business day of the month to the day before the preliminary index announcement date

**All other months:** Three business days following month-end

DATA	DESCRIPTION
Security Name	Example: Apple Ord Shs
CUSIP, SEDOL, ISIN	Available to clients licensed to these identifiers
Ticker	Example: AAPL
Exchange	Example: NASDAQ Global Select Market
Country of Headquarters	Example: US
Country of Incorporation	Example: US
Nationality	Example: US

## A transparent, comprehensive, and timely data source

Russell US Indexes, which include the large cap Russell 1000<sup>®</sup> Index and the small cap Russell 2000<sup>®</sup> Index, are the leading US benchmarks for institutional investors, with approximately \$10.6 trillion benchmarked to the Russell US Indexes. These are reconstituted fully in June each year to ensure a true, US investable opportunity set while balancing turnover. Strong governance is key. Since the beginning, we have been committed to leading governance best practices with robust, rules-driven and relevant index construction.

<sup>1</sup> Data as of December 31, 2020 as reported on April 1, 2021 by eVestment for active institutional funds, Morningstar for active retail mutual funds, insurance products, and ETFs, and passive assets directly collected by FTSE Russell. AUM includes blended benchmarks and excludes futures and options. AUM data does not include active and passive assets not reported to a 3rd party source or FTSE Russell. For funds where the AUM was not reported as of December 31, 2020, the previous period AUM was used as an estimate. No assurances are given by FTSE Russell as to the accuracy of the data.

## About FTSE Russell

FTSE Russell is a leading global index provider creating and managing a wide range of indexes, data and analytic solutions to meet client needs across asset classes, style and strategies. Covering 98% of the investable market, FTSE Russell indexes offer a true picture of global markets, combined with the specialist knowledge gained from developing local benchmarks around the world.

FTSE Russell index expertise and products are used extensively by institutional and retail investors globally. For over 30 years, leading asset owners, asset managers, ETF providers and investment banks have chosen FTSE Russell indexes to benchmark their investment performance and create investment funds, ETFs, structured products and index-based derivatives. FTSE Russell indexes also provide clients with tools for asset allocation, investment strategy analysis and risk management.

A core set of universal principles guides FTSE Russell index design and management: a transparent rulesbased methodology is informed by independent committees of leading market participants. FTSE Russell is focused on index innovation and customer partnership applying the highest industry standards and embracing the IOSCO Principles. FTSE Russell is wholly owned by London Stock Exchange Group.

No responsibility or liability can be accepted by any member of the LSE Group nor their respective directors, officers, employees, partners or licensors for (a) any loss or damage in whole or in part caused by, resulting from, or relating to any error (negligent or otherwise) or other circumstance involved in procuring, collecting, compiling, interpreting, analysing, editing, transcribing, transmitting, communicating or delivering any such information or data or from use of this document or links to this document or (b) any direct, indirect, special, consequential or incidental damages whatsoever, even if any member of the LSE Group is advised in advance of the possibility of such damages, resulting from the use of, or inability to use, such information.

No member of the LSE Group nor their respective directors, officers, employees, partners or licensors provide investment advice and nothing in this document should be taken as constituting financial or investment advice. No member of the LSE Group nor their respective directors, officers, employees, partners or licensors make any representation regarding the advisability of investing in any asset or whether such investment creates any legal or compliance risks for the investor. A decision to invest in any such asset should not be made in reliance on any information herein. Indexes cannot be invested in directly. Inclusion of an asset in an index is not a recommendation to buy, sell or hold that asset nor confirmation that any particular investor may lawfully buy, sell or hold the asset or an index containing the asset. The general information contained in this publication should not be acted upon without obtaining specific legal, tax, and investment advice from a licensed professional.

Past performance is no guarantee of future results. Charts and graphs are provided for illustrative purposes only. Index returns shown may not represent the results of the actual trading of investable assets. Certain returns shown may reflect back-tested performance. All performance presented prior to the index inception date is back-tested performance. Back-tested performance is not actual performance, but is hypothetical. The back-test calculations are based on the same methodology that was in effect when the index was officially launched. However, back-tested data may reflect the application of the index methodology with the benefit of hindsight, and the historic calculations of an index may change from month to month based on revisions to the underlying economic data used in the calculation of the index.

This document may contain forward-looking assessments. These are based upon a number of assumptions concerning future conditions that ultimately may prove to be inaccurate. Such forward-looking assessments are subject to risks and uncertainties and may be affected by various factors that may cause actual results to differ materially. No member of the LSE Group nor their licensors assume any duty to and do not undertake to update forward-looking assessments.
